Dear Mr. Greg Narlock:

This office received an asbestos management plan on November 18, 2016, for the aforementioned property.

We have reviewed the asbestos management plan and find that it is complete and satisfies the requirements established by LAC 33:III.2735 of the Louisiana Air Quality regulations for a school building exclusion. A copy of this letter must be included in the management plan located onsite.

If asbestos containing building material (ACBM) is subsequently found at the subject property that had been identified as receiving an exclusion, the local education agency shall have 180 days following the date of identification of the ACBM to comply with LAC 33:III.Chapter 27, Asbestos Containing Materials in Schools and State Buildings.

Please contact Marla Cobb at (225) 219-3033 if you have any questions or need additional information.

Sincerely,

A handwritten signature in blue ink, appearing to read "CSNL", with a long horizontal flourish extending to the right.
