

ADDENDUM TO CONTRACT

This Addendum to Contract (“Addendum”) is entered into by and between the Hynes Charter School (hereinafter “School”) and The Success for All Foundation (hereinafter “Vendor”). The Addendum is effective as of the 1st day of January, 2015.

During the 2014 Louisiana Legislative Session, the State of Louisiana enacted new laws governing the collection, disclosure and use of students’ personally identifiable information. The new laws require that any contracts between a school system and a third-party, who is entrusted with personally identifiable information of any student, contain the statutorily prescribed minimum requirements as to the use of personally identifiable information. In order to comply with the requirements of the new laws, this Addendum and the terms contained herein are hereby incorporated into the agreement previously entered into between Vendor and the School, entitled 2014/2015 Reading Renewal Contract and dated 7/1/2014 (the “Contract”).

In accordance with La. R.S. 17:3913(F), Vendor agrees to protect personally identifiable information in a manner that allows only those individuals, who are authorized by Vendor to access the information, the ability to do so. Personally identifiable information should be protected by appropriate security measures, including, but not limited to, the use of user names, secure passwords, encryption, security questions, and other such protection measures. Vendor’s network must maintain a high level of electronic protection to ensure the integrity of sensitive information and to prevent unauthorized access in these systems. The Vendor agrees to perform regular reviews of its protection methods and perform system auditing to maintain protection of its systems. Vendor agrees to maintain secure systems that are patched, up to date, and have all appropriate security updates installed.

To ensure that the only individuals and entities who can access student data are those that have been specifically authorized by Vendor to access personally identifiable student data, Vendor shall implement various forms of authentication to identify the specific individual who is accessing the information. Vendor must individually determine the appropriate level of security that will provide the necessary level of protection for the student data it maintains. Vendor shall not allow any individual or entity unauthenticated access to confidential personally identifiable student records or data at any time.

Vendor shall implement appropriate measures to ensure the confidentiality and security of personally identifiable information, protect against any unanticipated access or disclosure of information, and prevent any other action that could result in substantial harm to the School or any individual identified by the data.

Vendor agrees that any and all personally identifiable student data will be stored, processed, and maintained in a secure location and solely on designated servers. No School data, at any time, will be processed on or transferred to any portable computing device or any portable storage medium, unless that storage medium is in use as part of the vendor’s designated backup and recovery processes. All servers, storage, backups, and network paths utilized in the delivery of the service shall be contained within the United States unless specifically agreed to in writing by the School.

Vendor agrees that any and all data obtained from the School shall be used expressly and solely for the purposes enumerated in the original Contract. Data shall not be distributed, used, or shared for any other purpose. As required by Federal and State law, Vendor further agrees that no data of any kind shall be revealed, transmitted, exchanged or otherwise passed to other vendors or interested parties. Vendor shall not sell, transfer, share or process any student data for any purposes other than those listed in the Contract, including commercial advertising, marketing, or any other commercial purpose.

Vendor shall establish and implement a clear data breach response plan outlining organizational policies and procedures for addressing a potential breach. Vendor's response plan shall require prompt response for minimizing the risk of any further data loss and any negative consequences of the breach, including potential harm to affected individuals. A data breach is any instance in which there is an unauthorized release or access of personally identifiable information or other information not suitable for public release. This definition applies regardless of whether Vendor stores and manages the data directly or through a contractor, such as a cloud service provider.

Vendor shall develop a policy for the protection and storage of audit logs. The policy shall require the storing of audit logs and records on a server separate from the system that generates the audit trail. Vendor must restrict access to audit logs to prevent tampering or altering of audit data. Retention of audit trails shall be based on a schedule determined after consultation with operational, technical, risk management, and legal staff.

Vendor is permitted to disclose Confidential Information to its employees, authorized subcontractors, agents, consultants and auditors on a need to know basis only, provided that all such subcontractors, agents, consultants, and auditors have written confidentiality obligations to Vendor and the School. The confidentiality obligations shall survive termination of any agreement with Vendor for a period of fifteen (15) years or for so long as the information remains confidential, whichever is longer, and will inure to the benefit of the School.

Vendor acknowledges and agrees that unauthorized disclosure or use of protected information may irreparably damage the School in such a way that adequate compensation could not be obtained solely in monetary damages. Accordingly, the School shall have the right to seek injunctive relief restraining the actual or threatened unauthorized disclosure or use of any protected information, in addition to any other remedy otherwise available (including reasonable attorney fees). Vendor hereby waives the posting of a bond with respect to any action for injunctive relief. Vendor further grants the School the right, but not the obligation, to enforce these provisions in Vendor's name against any of Vendor's employees, officers, board members, owners, representatives, agents, contractors, and subcontractors.

Vendor agrees to comply with the requirements of La. R.S. 51:3071 *et seq.* (Louisiana Database Breach Notification Law) as well as any other applicable laws that require the notification of individuals in the event of unauthorized release of personally identifiable information or other event requiring notification. In the event of a breach of any of the Vendor's security obligations or other event requiring notification under applicable law, Vendor agrees to

notify the School immediately and assume responsibility for informing all such individuals in accordance with applicable law and to indemnify, hold harmless and defend the School and its employees from and against any and all claims, damages, or causes of action related to the unauthorized release.

In accordance with applicable state and federal law, Vendor agrees that auditors from any state, federal, or other agency, as well as auditors so designated by the School, shall have the option to audit Vendor's service. Records pertaining to the service shall be made available to auditors and the School when requested.

Vendor agrees that if the original Contract is terminated or if the original Contract expires, Vendor shall return all data to the School in a useable electronic format. Vendor further agrees to erase, destroy, and render unreadable, all data in its entirety in a manner that prevents its physical reconstruction through the use of commonly available file restoration utilities. Vendor shall certify in writing that these actions have been completed within 120 days of the termination of the Contract or within seven (7) days from receipt of any request by the School, whichever comes first.

The terms of this Addendum shall supplement and supersede any conflicting terms or conditions of the original Contract between the Parties. Subject to the foregoing, the terms of the original Contract shall remain in full force and effect.
