

The Board of Directors will open nominations for new members or officers, as needed. The opening is communicated in the school newsletter if it is for the parent position. Resumes are submitted. The board establishes a committee comprised of the Chief Executive Officer and one or two board members to interview candidates. Candidates which fit the skill sets and needs of the board at that time are recommended for confirmation by the Board of Directors at a subsequent meeting. This cycle typically takes place every April and is completed by June. If there are no board vacancies, the board will simply elect officers.
