

SaveAround Fundraiser

Thank you to our Husky team for selling the SaveAround coupon books. We love this fundraiser because for every book you sell, we keep 50% of the proceeds. It is also a great product because of the savings that you accumulate when you use the book. There are deals inside for everyone.

Not to mention, it is a great opportunity for our parents and kids to set a sales goal and work together to achieve it. Furthermore, our kids can learn some valuable life lessons when participating in fundraisers. They can practice and reinforce the skills they are learning every day in school such as: public speaking, personal responsibility, computation, working as a team, understanding the sales process and the value of money. Not only can they practice and refine their skills, but they can also develop a sense of accomplishment once the goal they set is achieved. As always, we remind you to use safety when promoting and selling because safety always comes first.

Consequently, if you are unable to sell your sample book, please return it to school with your child. The book becomes a liability if not returned or sold. It is our responsibility to supply payment for the book or a returned book for every book ordered. If you have questions, please contact hynes.pto@gmail.com.
