

Thank you to all of our families, friends, sponsors, staff, and students for a job well done this year! We worked, studied, fundraised, played but most importantly succeeded as a TEAM!

How do we measure success you might wonder? Look around and you will see the answer is found right there inside of each and every one of you. There is no magic number or grade that will truly define success. If you give your absolute best each and every time, that is success. Persevering on days when you feel like you can't manage, rising to levels you didn't think you could and waking up every day with a smile to try again is success. Winning is an added perk. Winning is exactly what we do here at Hynes. We build on our individual successes and combine those with the work of others around us to ultimately win from ball games, to races, to canvases, to books. We win!

All together we raised \$60,000 to continue to pour into our great community, which is nothing shy of amazing. This year we took home the trophy and we couldn't be more proud to serve alongside such a great group of teammates. Enjoy your summer and come back ready to be great again!

Thank you for your continued support.

Signing out for 2018-2019,

Hynes PTO
