

Allow us to officially nDorse... nDorse! This amazing program is a built-in day brightener and “shout out” system for the teachers at Hynes. Available through the Hynes library website, this program is open to parents as well as the faculty at Hynes. You can also have it at your fingertips consistently by downloading the free app. The program is simple; it allows teachers and parents to give thanks and compliments on a public venue. If someone does something to go above and beyond, keep the good vibes going by recognizing the act on nDorse. If you had your day brightened, brighten that person’s right back. Let’s remind one another that good acts don’t go unnoticed, and that teamwork is paramount to success. It’s a little thing that makes a big difference. Give it a try!
